# Sprint 2

## User Stories Implementation

1. Contact List - As a user of the app, I want to be able to add people by e-mail and phone number

2. Math Algorithm - Develop a calculation algorithm to resolve balances

3. To-do List - As a user of the app, I want to be able to organize and record tasks I plan on executing

4. Mobile App - As a user in a group of people, I want to be able to split a bill among the group using a mobile app

## Development Platform

Ionic & Firebase
